**Proprioception: Body Awareness/Pressure**

| Pillow Pile | • Make a pile of pillows/sofa cushions on the floor and have the child jump on them or crawl through the pillows while you provide some pressure on the top of the pillows to provide child with deep pressure |
| Tennis Ball Chair and Bouncy Band | • Designed to provide tactile stimulation to help sensory seeking kiddos regulate themselves |
| **Tennis Ball Chair** | **Bouncy Band** |
| Cut tennis balls in half and super glue to chair | Use any exercise band and tie around bottom legs of chair |
| Empty Swimming Pool Filled with Cut Up Pool Noodles | • Kid swimming pool: Plastic or blowup  
• Pool noodles cut up into smaller pieces  
• This low-cost alternative creates the same proprioceptive input as a ball pit |
| Spandex Sensory Sock and Bed Sheet | • The stretchable body sock and bed sheet provide proprioceptive input and deep pressure to the individual’s whole body creating a calming, secure feeling  
• Buy spandex material in preferred color at Walmart, Michael's, Jo-Ann Fabrics |
| DIY Weighted Shoulder/Lap Belts | • Gentle comforting pressure allows the user to feel more grounded, focused, and secure  
• Fill knee-high socks with rice or beans and tie tightly  
• Can add essential oils such as lavender for calming aromatherapy  
• All things can be found at Dollar Tree |
| Weighted Sensory Bottles | • These weighted sensory bottles require some strength and energy to create visually appealing effects and provide proprioceptive input. Great for high energy kiddos.  
• All things can be found at Dollar Tree |

- All items can be found at the Dollar Tree                                                                                     |
| **Multi-Color Beaded Sensory Curtain**         | - Provides a fun visual and audible and tactile object to play with and go through  
- Supplies:  
  - PVC Pipe and Connectors (found at Menards/ Home Depot) make as big/little as desired  
  - Bead Necklaces hot/super glued on top of PVC (Dollar Tree)                                                                       |
# Tactile: Touch

## Rainbow Soap Foam Bubbles
- This very quick and simple puffy, fluffy multicolor foam is a fun form of sensory play—try mixing the colors!
- **Supplies:**
  - 2 Tbsp of dish soap (Dawn Dish Soap)
  - ¼ cup of water
  - Mixer (Mix for 1-2 minutes)
  - Food Coloring

## Different Textured Tactile Balls
- Whether your catching, throwing, squeezing or rolling this classic toy, the bright colors and varying textures encourage sensory exploration and promotes tactile development with different sizes and shapes
- All these items can be found at Dollar Tree

## Play-Doh
- Play-Doh is well known kid favorite allowing exploration and creativity to arise. No matter if you squeeze it, roll it, flatten it or sculpt it, you are getting tactile input and working on fine motor skills
- All items can be bought at the Dollar Tree

## Sensory Bags
- These custom made sensory bags provide tactile and manipulative stimulation experiences and keep kids busy

- *Make sure to duct tape around outside of entire Ziploc bag*

## Create-Your-Own Texture Book
- This fun custom-made book allows your child to explore different textures while learning at the same time
- **Supplies:**
  - CD sleeves with front plastic wrap cut out
  - 1” album rings
  - Hole Punch
  - Double Sided Tape
  - Cardboard
  - Superglue
  - Sensory items/textures
- All these items can be found at Dollar Tree
**Vestibular: Body Orientation and Balance**

| DIY Sensory Swing | • Swinging stimulates vestibular input and helps kids practice balance and coordination while having fun along the way  
  • Supplies:  
    - Round saucer snow sled (Walmart, Target, Menards)  
    - Strong rope tied at four points around saucer  
    - Proper mounting hardware  

| Swivel Chair | • Place the child in a swivel chair and safely spin them around in a circle to give them vestibular input.  
  • Try spinning one way 5 times then go the opposite way 5 times  

| Tactile Balance Noodle | • Assist on strengthening strong foundational balance skills with the tactile balance noodle. Squishy, textured surface stimulates the individual’s sensory system  
  • A pool noodle cut in half should be used for beginners and a full noodle can be used for increased difficulty  

| DIY Sensory Disc Twister | • Hot glue/super glue a wide variety of textured and colored materials to cardboard or foam discs  
  • Use scrap fabrics, pom-pom balls, a feather boa, microfiber hand duster, textured gloves, etc.  
  • All these items can be found at Dollar Tree  

| Sensory Fidgets | • All these items can be found at Dollar Tree
